

NARO LEARNS SOMETHING NEW

BY CHILDBOOK.AI

Naro's tummy felt a flutter and a flip,
Her first day at school, a brand-new trip!
She wore her backpack, blue and bright,
And walked in with a nervous smile so light.

'Hi, I'm Naro,' she said with cheer,
New friends waved, 'Come sit right here!'
The teacher smiled, 'Let's learn and play,
Sharing crayons makes a happy day.'

Naro learned:

- Saying hi makes new friends.
- Sharing is caring.
- School can be fun and kind.

Try this: Say hello to someone new today!

LDBK

One sunny day, Naro found a box,
Full of crayons, reds and blues in socks!
She saw a rainbow after the rain,
Colors dancing, again and again.

'Red is like apples, yellow like the sun,
Green is grass,' said Naro, having fun!
'Blue is the sky, so wide and clear,
Purple's grapes, my favorite's near!'

Naro learned:

- Colors are all around us.
- Mixing red and blue makes purple.
- Naming colors is fun.

Try this: Find something red in your room!

A little puppy came to play,
Soft brown fur, so sweet, so gay.
'Woof woof!' it barked with a happy tail,
Naro laughed, 'Let's be best pals, without fail!'

She gave it water, gentle and slow,
Patted its head, watched it grow.
'Puppies need love, food, and care,'
Said Naro, brushing its soft hair.

Naro learned:

- Puppies need food, water, and love.
- Being gentle keeps pets happy.
- Taking care of animals is a big job.

Try this: Can you name three things a puppy needs?

Naro dug a little hole in dirt,
Planted a seed, no need to hurt.
She watered it gently, day by day,
Watched a tiny sprout begin to sway.

'Flowers need sun, water, and soil to grow,'
Said Naro, watching her garden glow.
Soon a blossom bloomed so bright and true,
A gift from patience, pink and blue.

Naro learned:

- Plants need sun, water, and soil.
- Patience helps things grow.
- Taking care of plants is rewarding.

Try this: Plant a seed and watch it grow!
