

# NOAH AND THE BIG BOAT

by [childbook.ai](https://childbook.ai)

Long, long ago, there was a man named Noah. He was a good and kind man. God looked down on the earth and saw that people were not nice to each other. But God liked Noah because he was good. So, God decided to talk to Noah.

God told Noah, "Build a big boat. It will rain a lot! All the land will be water." Noah listened to God and started building a big boat. He worked very hard and made sure the boat was strong and safe.

Noah's son helped him gather the animals. They went to the forest, the jungle, and even the desert. They took two of every animal on the boat. There were lions, rabbits, and even elephants! Noah and his family were happy to have the animals with them.

One day, dark clouds covered the sky. It started to rain. The raindrops fell gently at first, and then they became stronger and faster. It rained for many days. Splash! Splash! The earth was covered with water.

Noah and his family were safe inside the big boat. They took care of the animals and made sure they had enough food to eat. They were grateful to God for keeping them safe. Even though it was raining outside, they felt warm and protected inside the boat.

After many days, the rain finally stopped. The clouds went away, and the sun came out. Noah and his family looked outside and saw that the water was going away. The land started to appear again. They were filled with joy and hope.

Noah and the animals came out of the boat. They saw a beautiful rainbow in the sky. It had many colors - red, orange, yellow, green, blue, indigo, and violet. God gave the rainbow as a promise. He said, "I will never flood the whole earth again." Noah and his family thanked God for keeping them safe.

Noah and his family lived happily ever after. They took care of the animals and the earth. They remembered God's promise and were always grateful. Whenever they saw a rainbow in the sky, they knew that God was watching over them.
