

TIMEY THE TIGER TEACHES TIME

by childbook.ai

In a lush, green jungle lived a special tiger named Timey. Timey wasn't just any tiger; he had a magical ability to tell time. Every animal in the jungle loved Timey because he always helped them know when it was time for different activities. One sunny morning, Timey decided to teach the young animals how to

tell time. He gathered everyone under the big, shady tree.

Timey began by showing the little animals a big clock with numbers and hands. 'This is a clock,' he said, 'and it helps us know what time it is.' He explained how the short hand shows the hour and the long hand shows the

minutes. The young animals listened carefully, their eyes wide with curiosity. They couldn't wait to learn more!

Timey asked the animals to practice by moving the hands on a toy clock. 'What time is it now?' he asked, pointing to the clock. 'It's 3 o'clock!' shouted a little monkey excitedly.

Timey smiled and nodded, 'That's right!' Soon, all the animals were able to tell the time correctly. They felt so proud of themselves.

To celebrate, Timey gave each animal a little watch as a gift. 'Now you can always know what time it is,' he said with a grin. The animals thanked Timey and promised to

practice telling time every day. From that day on, the jungle was never late for any event. Thanks to Timey, everyone knew the importance of time!
