

**I LOVE MY MOM**  
by [childbook.ai](https://childbook.ai)

Once upon a time, there was a little boy who loved his mom very much. Every morning, he would watch his mom as she cleaned the house. One day, he decided to help by dusting the shelves. But when he tried, he accidentally knocked over a vase. His mom

just smiled and said, 'It's okay, my little helper.'

Later, the boy saw his mom folding clothes. He thought it would be fun to help, so he grabbed a towel. He tried to fold it, but it ended up in a crumpled heap. His mom laughed and showed him how to fold it

properly. She hugged him and said, 'Thank you for trying, my sweet boy.'

In the afternoon, the boy followed his mom into the kitchen. She was baking cookies, and he wanted to help mix the dough. He stirred too hard, and flour flew everywhere! His mom giggled and said, 'You're my little chef!'

Together, they cleaned up and enjoyed the cookies.

As the day ended, it was time for bed. The boy climbed into his mom's lap for a bedtime story. He snuggled close and whispered, 'I love you, Mom.' His mom kissed his forehead and said, 'I love you too, my darling.' And with

that, they both drifted off to sleep, happy and loved.
