

**THE ADVENTURES OF  
WEBSAFE WARRIORS**  
by [childbook.ai](https://childbook.ai)

Neev and Jheel were siblings who loved playing games and watching funny videos on their tablet. One day, while exploring a new game, a strange pop-up appeared. "Congratulations! You won 1,000 gold coins for your game!" it said. "Wow, gold coins!" Neev shouted. But just as he was about to tap the link, their screen lit up with a sparkling flash. Out of the tablet jumped Captain Cyber, a friendly robot who wore a shiny silver cape. "Wait, Neev!" Captain Cyber said. "That's a trick! Let me teach you about WebSafe Warriors and how to stay safe online." Neev and Jheel looked at each other in amazement. "What's a WebSafe Warrior?" Jheel asked. "A WebSafe Warrior knows how to spot traps online, like fake pop-ups and bad links," Captain Cyber explained. "Let's start your training!"

Captain Cyber led Neev and Jheel into a virtual world inside the tablet. The world was colorful and filled with floating icons and links. "Look around," Captain Cyber said. "Not everything here is safe." Jheel pointed at a link that promised free toys. "Is that safe?" she asked. "No," Captain Cyber replied. "Always be careful with offers that seem too good to be true."

Captain Cyber showed them a giant lock with numbers and letters. "This is a password puzzle," he explained. "A strong password keeps your information safe." Neev tried to guess the password but failed. "Try using a mix of letters, numbers, and symbols," Captain Cyber suggested. Together, they created a strong password and unlocked the puzzle.

As they walked further, they saw a net with fish jumping out of it. "This is a phishing net," Captain Cyber said. "It catches people by tricking them into giving personal information." Jheel was curious. "How can we avoid it?" she asked. "Never share your personal information with strangers online," Captain Cyber advised. "And always check with an adult if you're unsure."

Captain Cyber introduced them to a game called Safe Surfing. “The goal is to avoid the dangers and reach the Safe Island,” he explained. Neev and Jheel played, dodging pop-ups and closing fake ads. “You’re doing great!” Captain Cyber cheered. They reached the Safe Island, learning to surf the web wisely.

Captain Cyber showed them a huge fortress with glowing walls. "This is the Firewall Fortress," he said. "It protects your device from bad things online." Neev was amazed. "How do we build one?" he asked. "By keeping your software updated and using security settings," Captain Cyber explained. "It's like building a strong wall around your castle."

Captain Cyber gave them a final challenge. "Find the hidden WebSafe Warrior badge," he said. Neev and Jheel searched carefully, using all they had learned. They spotted the badge behind a safe link. "You did it!" Captain Cyber exclaimed. "You are now WebSafe Warriors!"

Neev and Jheel returned to their room, feeling proud. "Thank you, Captain Cyber," they said together. "Remember to always be safe online," Captain Cyber reminded them. He waved goodbye and disappeared back into the tablet. Neev and Jheel shared what they learned with their friends, making sure everyone stayed safe online.
