

# WHY DO YOU WASH YOUR HANDS?

by [childbook.ai](https://childbook.ai)

Max the Monkey loved playing outside in the jungle. He swung from trees and chased colorful butterflies. All his friends joined him for the best adventures every day. But one day, Max didn't feel like his bouncy self. He had a runny nose and a sore throat and wanted only to rest.

Max's mom took good care of him while he rested. Then, a wise old owl came to visit him. Max explained how he was feeling, and the owl listened carefully. The owl told Max about germs, tiny bugs that can make us sick. Max was surprised to learn they could be on doorknobs, toys, and even hands!

The owl explained that germs spread when we touch things and then touch our faces. But the owl had some good news for Max. "There's a magic way to keep germs away: washing our hands with soap and water!" Max was curious about this magic. So, he went to the sink to try it out.

Max washed his hands with lots of soap and water. He made big bubbly bubbles and rinsed his hands thoroughly. Soon, Max started to feel stronger and healthier. He was thrilled to play outside with his friends again. Max was happy and knew he should always remember to wash his hands!
