

# SPACE VOYAGERS

by Peter W Taylor & AI

One starry night, two sisters, Lil) and Ari, gazed up at the sky. "I wish we could visit the stars!" Lil whispered. Suddenly, a shimmering spaceship appeared before them!

Out stepped two friendly aliens, Zilo and Vexa.  
"Come with us!" they said. "We'll take you on a  
journey through the universe!"

Hand in hand, Lil and Ari climbed aboard. WHOOSH!  
The spaceship soared past twinkling stars and  
glowing galaxies, faster than a shooting star.

They landed on a magical planet filled with golden trees and rivers that sparkled like diamonds. "Welcome to Lumora," Zilo said. "This is the Planet of Light."

As they explored, glowing creatures floated around them, giggling and twirling. "Everything on Lumora shines with love and kindness," Vexa explained. "The more love you share, the brighter you glow!"

Lil and Ari met the Lumarians, beings of pure light. "We are connected to all things in the universe," one of them said. "Love links the tiniest star to the biggest galaxy."

Lil and Ari held hands, thinking of everyone they loved. Suddenly, they started to glow too! "Love is the brightest light of all!" Lil cheered.

With a swirl of stardust, Zilo and Vexa brought them back home. "Remember," Vexa said, "the universe is full of love. Keep shining!"

As the spaceship disappeared into the sky, Lil and Ari hugged each other. They knew their adventure had just begun—because love and light would always be with them.

The End.
